On our Tenant Handbook you will find many resources to help you access the information you need prior to move-in and during your tenancy. Please review the Tenant Handbook which provides further details of **RentableUSA.com** policies and procedures, and addresses questions you may have as a tenant with us.

(1)

When you move-in

Get familiar with the Home

When you first move-in, familiarize with the mechanical parts of the house, locate the circuit breaker box (normally above the gas meter on the side of the house) and note the Ground Fault Interrupt –GFI- breaker, the breakers for the stove/oven, water heater, air conditioner and heating system.

Very important that you'll locate the main house water main Shut-Off valve (normally located in the front lawn covered by a concrete lid with the word WATER written on it), could be also located on the sidewalk or near by a flower bed within the perimeter of your lot lines. Locate as well the Shut-Off for the hot water heater, and familiarize yourself with the shut off valves under each sink (Kitchen, and baths). We would appreciate if you could help us out by shutting off any of these valves in the event that a water leak may take place hence preventing or minimizing any possible water damage.

General Rules & Regulations

Most GFIs located at the breaker box are marked with a red, yellow or white button. Many houses have the GFI at the top plug outlet. There may be more than one GFI plug in the house. If these "pop" or "trip", reset them. Check for GFI plugs in baths, kitchen and garages areas.

Clean liquid spills with a dry cloth and sticky spills with a slightly dampened cloth. Do not use soaps, detergents or oil soaps on your wood floors. When mopping is needed, use a wood cleaner applied lightly with a cloth or mop and then buff dry. Tenant shall not shellac or refinish floors without management's prior written approval. Use fabric-faced guides under the furniture legs to prevent scratches. Do not drag or slide furniture across the floor. Tenant will be responsible for damage to the flooring.

Carpet Care

Routine carpet care requires a thorough vacuuming at least once a week to remove the soil from the carpet and to keep the pile erect. Heavy traffic areas require more frequent vacuuming. Before moving in, the carpets are professionally cleaned and you must have them professionally cleaned upon vacating. A receipt is required at the time the keys are returned.

Stoves

Do not use oven cleaner on self-cleaning or continuous cleaning ovens. For solid surface stoves, use only cleaners approved for those surfaces. Tenant will be charged for damage to an appliance caused by improper use or cleaning, or by lack of maintenance.

Dishwashers

The dishwasher should be used at least once a week. Seals may dry and the motor may be damaged by long periods of inactivity. Clean the door and check the bottom of the dishwasher after each use for items that may fall from the racks. Check the perimeter of the door for food items falling from the counter and make sure drains are clear of debris.

(10)

Garbage Disposals

Garbage disposals should not be used for bones, celery, onion skins, greasy items, pasta, rice or any other similar materials. If the motor buzzes, turn the switch off. Something may be jamming the blades. Verify that the object jamming it isn't something that shouldn't be placed in the disposal, such as a bottle cap or kitchen utensil. There is usually a reset button on the bottom or the side of the disposal (this is usually a small red or yellow button). Almost all disposal jams are from items put into the disposal.

Washer/Dryer Hookups

Check all hoses and washers to prevent or correct leaks. When installing a washing machine, use “burst resistant stainless steel braided” washing machine hoses only. If you are going to be absent from the property for an extended period of time, turn off the hot and cold water supply valves. Check the walls and floor by the washing machine monthly for evidence of leaks. Keep dryer vent and lint trap clear of lint or other build up as this can cause a fire.

Water Heaters (Gas/Electric)

If you have an electric water heater that is not functioning, you may want to check to see if the reset button or the breaker may have been tripped.

If you have a gas water heater, the pilot light may have gone out. Check manufacturer’s instructions or contact the gas company.

Kitchen Appliances

Each kitchen appliance must be cleaned regularly including the stove hood vent, the filter in the stove hood vent, the oven, under the burners on the stove and the drip pans. Please do not put

aluminum foil on the drip pans. Upon moving out, all drip pans must be replaced. Please clean the top and under the refrigerator and washer/dryer regularly. Not cleaning all these items regularly can cause excessive wear and tear, for which tenant will be responsible.

Fireplaces

If there is a fireplace in your home, do not burn pine or any other “sappy” wood. This causes a buildup of residue in the chimney and increases the possibility of fire. The fireplace is not a place to burn cardboard, holiday wrappings, pine needles, etc.

When using the fireplace in your residence:

1. Open the flue before starting the fire and keep it open until the ashes are cool enough to touch.
2. Close the fireplace screen or door when the fireplace is in use to keep sparks from flying out.
3. Do not put anything, including paper and kindling, closer than three (3) feet to the fireplace while it is in use.

(12)

7. Do not stuff scrap paper, gift wrapping paper or old holiday trees into the fireplace.
8. Do not use excessive amounts of paper or wood to create a roaring fire.
9. Do not dispose of burnt logs or ashes until they cool completely. Dispose of cooled ashes in a metal container. Usually, you can re-burn logs. If you must dispose of a log, wait until it is completely cool, then douse it with water and place it outside away from

combustible materials.

10. Notify **RentableUSA.com** of any problems with the fireplace.

11) **RentableUSA.com** may be placing a “For Rent” sign on the property and showing the property for rent prior to the time you vacate the premises. Please be considerate when we request a convenient time to show the property.

(13)

Marketing During the Notice Period

After you have given notice that you intend to move, the property will be listed for rent. The most probable showing hours are between 9:00am and 6:00pm. **RentableUSA.com** will make an effort to accommodate your schedule, however, the property must be available and in good condition for agents to show. You will be notified prior to showing. If there is no answer or no answering machine, we will call your work number to give notice of a showing. Extra effort on your part is expected in keeping the house and yard neat and clean during marketing. Animals should be out of the way and litter boxes should be clean and odor free. The better a home shows, the more likely it will rent quickly. The faster a new resident is found, the less you will be bothered by showings. A home that shows well benefits everyone!

The Move-Out Process

Once the tenant has vacated the premises and the keys have been received by **RentableUSA.com**, we will begin the Move-Out process to determine and expedite return of the tenant’s security deposit. Keys **MUST** be returned to **RentableUSA.com** and not left at the premises, per your lease agreement. Tenant is fully responsible for rents until the keys have been given to and received by **RentableUSA.com**. All utilities are to be left on for three days after your keys have been returned.

Breaking the Lease

If you default on your lease, you will be responsible for all costs incurred in securing a new tenant including but not limited to rental losses incurred as a result of tenant's default. If you find you must move before the end of your lease, we will market the property promptly, providing that you have given the required 60-day written notice. You must continue to pay the monthly rent each month until the property is re-rented or your rental obligation ends, whichever comes first.

Forfeiture of your security deposit does not excuse you from other obligations of the rental agreement. You must follow all procedures for marketing, cleaning and move-out. The most common charges for breaking a lease are:

- a. A re-leasing and/or breaking lease fee.
- b. Rent until the new lease takes effect.
- c. Lawn maintenance (you need to arrange for that before leaving)
- d. Utilities (keep them on in your name until notified of a new tenant)
- e. Advertising

Return of the Security Deposit

THE SECURITY DEPOSIT MAY NOT BE USED FOR ANY RENT DUE.

EMERGENCY/DISASTER PROCEDURES

Make Your Plan Now

The key to safely and properly handling any emergency/disaster is pre-planning and staying calm during and after the event. Being prepared is every individual's responsibility. Don't rely only on the authorities. Advanced planning allows for fewer mistakes and greater safety for you, your family, and the home you are caring for.

Hurricane/Tornado/Storm Watch/Storm Warning

When living in Florida, the chances of experiencing a hurricane, tornado or heavy storm are always possible. It is important to know and follow proper procedures to safeguard yourself and the property you live in and minimize potential risk and damage.

A Hurricane/Tornado Storm Watch is when Hurricane/Tornado are possible in the specified area of the watch, usually within 36 hours.

In case of Disaster

Everything an owner would do to protect the property, the tenant is expected to do as well. The first priority is to stop additional damage. We have many thunder and lightning storms, power outages and high winds. An emergency can happen at any time. Be prepared.

Because we get advance warning for Hurricanes/Tornados, many people choose to leave town. If you leave, you still must secure the property prior to leaving.

DISASTER PROCEDURES

Have an emergency preparedness plan, a checklist and storm kit. Stay tuned to the local news media and follow all recommended precautions and instructions. During the storm or before leaving, please be sure to:

1. Turn off main breaker to house
2. Turn off main gas line to house (Call Power Company for instructions)
3. Turn off main water supply to house
4. Take all recommended precautions by the local news media and bulletin publications.
5. Secure your pets, inside. If it is not safe for you outside, it is not safe for your pets either. If you are leaving the property, do not leave your pets behind.
